To whom it may concern

I can confirm that Verteda Ltd have been working with ARC Services (UK) Ltd (ARC) for the past 5 years. ARC is considered by Verteda to be a strategic partner to whom we trust a large volume of our staging, deployment, installation and support/maintenance requirements, throughout our customer base in the UK and Ireland.

We have always found the ARC team to be reliable and flexible and we are very confident in their ability to act as our ambassadors on site – indeed on a number of occasions in the past we have received notes of commendation from our customers praising the work and the “can-do” attitude of the ARC engineers.

Over the years of working together ARC has clearly demonstrated that they understand the requirements that Verteda has and, as importantly, our ethos and strong desire to provide very high levels of customer service delivery at all times. This ethos is mirrored by ARC which is one of the main reasons why the relationship has been so successful.

Verteda views ARC as a long-term partner and I would not hesitate to recommend them as an I.T. and EPOS service provider of choice.

Yours sincerely

Adrian Burns

Managing Director
